

Jirka Schlesinger

UX Lead focused on Complex & AI-Enabled Products

PROFILE

Senior UX and Service Designer working on complex digital and AI-enabled products in enterprise and consulting environments. I specialize in turning ambiguous problems into clear product decisions that balance user needs, business goals, and delivery constraints.

EXPERIENCE

UX Lead / Digital Product & AI Experience Lead

Sept 2016–present

PwC · Prague & Global

Lead UX across client and internal digital products. Own end-to-end UX delivery and act as senior UX partner within multidisciplinary teams.

Key Responsibilities

- Lead discovery, problem framing, UX strategy, design, validation, and delivery
- Translate unclear requirements into actionable UX direction
- Design and review user flows, prototypes, and validation insights
- Facilitate workshops and communicate UX decisions to senior stakeholders
- Balance user needs with scope, timeline, and governance constraints

AI & Data-Driven UX

- Lead UX for AI-enabled tools and Responsible AI solutions
- Design experiences for data annotation, document intelligence, and analytics
- Focus on transparency, trust, and explainability in AI-driven systems

Clients & Context

- Global clients and international banking groups
- Enterprise and regulated environments (banking, financial services)
- Internal platforms used at scale within PwC

People & Practice

- Mentor UX designers and act as go-to reviewer and problem-solver
- Support onboarding, UX standards, and quality consistency
- Position UX value through scope shaping and upselling

Location

Prague, CZ

ABOUT

Designer with ~20 years in design and ~13 years in UX. Focused on practical, usable solutions, rapid prototyping, AI-assisted workflows, and shaping complex concepts into clear user experiences.

PERSONAL

- Father of two
- Dog owner — Tara, from shelter
- Campervan traveler
- Black metal and noise enthusiast
- Canoeing when possible

EDUCATION

Graphic School Prague

Polygraphy
2000–2004

- Sole graphics professional providing world-class design and user experience/ interfaces for client-facing and internal needs. Created and revived branding strategies, implementing them across all touchpoints.
- Designed vuMedia/MediaLounge OTT platform front-end for multiple customers globally
 - Created complete corporate identities for Visual Unity, Dynamic Broadcast, and vuMedia
 - Produced web design, social media presence, and revenue-generating interfaces for video stores worldwide
 - Designed print materials (business cards to large format advertising), trade show exhibits, and digital sales materials
 - Developed apps for Android TV, iOS, and Android platforms
 - Implemented social media communications ensuring consistent corporate visual and verbal messaging

VOLUNTEERING

Collaborated with TEDxPrague on visual design for TEDxPragueWomen and subsequent events. Created event programmes, name badges, business cards, and presentation slides. Worked alongside Tomski & Polanski on illustration integration.
